## About the Cover

---

The design showcases a map of the Philippines, complemented by illustrations of various tools and technologies pivotal for a comprehensive understanding of the country's weather, climate, and environmental processes. This ensemble symbolizes the united endeavors of Filipino scientists, researchers, and specialists in advancing our knowledge of weather and climate. Considering the Philippines' geographical vulnerability to severe weather events like tropical cyclones, this design underscores the nation's dedication to scientific exploration and preparedness.

Artworks by Ms Guile Saligo
